

A 3D architectural rendering of a coastal development plan. The scene shows a large body of water on the left, with a shoreline on the right. The shoreline is densely populated with numerous small, rectangular, light-colored buildings, each with a flat roof. These buildings are arranged in a grid-like pattern, following the curve of the coast. The buildings are surrounded by a dense forest of tall, thin evergreen trees. In the background, a low, rolling hill or dune is visible under a clear sky. The overall impression is of a planned, modern coastal community.
